MODERN PROPHETS. SAINTS. OR WIZARDS AND WITCHES. ?.

I am well aware I am touching on touchy ground here because of the very wide beliefs of our readers in religious thought . some of whom are very orthodox and others who are very unorthodox . Many religions today believe that prophecy ceased at the age of the early Christians and quoting Paul in Corinthians . " Whether there be prophecies they shall cease " leave it there as final although they do not quote the whole context which says that all these gifts spoken of in that chapter are those of the Holy Spirit and according to ALL Christian beliefs this is the Age of the Holy Spirit and He is with us NOW. Further this very chapter adds that " When that which is perfect is come THEN will all these be done away . " That which is perfect we feel refers to none other than the Christ at His return . We will not add further than this as this is not intended as a religious discussion but merely to point out some of the conceptions of men regarding the ability of men TODAY to prophesy. One hundred years ago nearly. a Maid of Orleans. Joan of Arc. claimed to have been inspired to prophesy and despite great opposition from Church and State she insisted that she had been visited and spoken to by heavenly beings. Time proved her prophecies correct and although she was apparently burned at the stake for her beliefs she later was made a Saint. and revered not only in her native country . but the whole world accredited her as being what she claimed to be, a prophetess. but officialdom called her a witch . Others before her and since have given to the world their utterances which have been scorned and ridiculed but despite it all they have persisted and time has proven them very correct . Nearly fifty years ago another maiden , Lucia of Fatima in Portugal. had visions and gave prophecies. concerning the nations and the future of the events concerning them. The Church then also persecuted her . but thank God for the more enlightened among them she at last was accepted as being genuine and her message was heeded and much of her utterances have already been proven true. It is a deep regret however that the final message given which was to have been revealed to date has not been made public. at least to the world The Bible is full of incidents in which men and women were visited by heavenly (space) beings and told certain things concerning themselves or the national

AUSTRALIAN SAUCER RDCORD. PAGE TWO.

EVENTS WHICH WERE TO OCCUR. and like most prophets they suffered the fate of most who preceded them .

In the eight years of research I have spent I have purposely kept an open mind and have found that God indeed DOES SPEAK TODAY to His servants in many varied ways and that prophetic utterances and portents have been and can be given to those who place their lives into His Divine hands.

But this does not say I commend all to listen to everyone who claims to speak as having recieved "messages" for one thing is very certain that the Bible admonition is very well worth taking heed of. " If a prophet utter things and they come to pass HEED HIM . if Not . Spurn HIM. " and in the New Testament we are enjoined to " Try the Spirits " . this being a clear indication that it is possible that there are both good and bad spirits and this is very true as some of us who have delved into the ESP and Psychic world have found . and it must be indeed a very careful student who is well aware of Who his Protector is. and HOW to protect himself from these black begative forces , before he DARES to tread in a path which could well be fraught with the greatest of danger not only to his life and soul. but others around him.

It is a well known and accepted fact that there is White Magic and Black hence one must be indeed very sure of their ground. One does not have to go far along the path of those involved in negative prtices to find out that the tree will be the fruit it is made of. . I have seen those who claim to be prophetic etc. and they have indeed been most astute in their forecasts but their lives are full of bitterness . vindictiveness. hatred, and vicious . sometimes not apparent publicly . but scratch a ~~tigress~~ and she will show her fangs. is very true of those whose lives are inspired by lower forces. but in contrast . those whose lives are God inspired and are being influenced by His Spirit and are His servants. only show LOVE. kindness. and gentleness maybe at times their message is a fiery one of denunciation. but amid it all one can feel the throb of the heart of God's Love calling His children to repentance. The Fatima message was not a pleasant one. but it did tell of H Hope for those who were prepared to, listen to God's message.

I am fully persuaded that among us today are many men and women who have been made " channels" to call the world to repentance. and whose prophetic utterances should well be heeded.

No one can deny we live in very perilous days. and there is no record of any world crisis even to nations that God has not sent His messengers to warn and prepare His people. Why should these dark days be any exception especially when such dire things could happen on the world more than at any other time. I believe that many people have come to us from space (Ouranous-Heaven) to carry out a programme of preparing the people for that which is to come some have come in space ships. others have been " Born into the kingdom for such a time as this. (See the story of Esther .) and behind it all a great plan is being worked out for the Redemption of man and to those who will heed the warnings given by these modern prophets and prophetesses.

Take care we do not make the mistake of the past and Burn by contempt those sent unto. us. Judge them by the fruit they produce and if evil scorn them indeed . but if radiating the love of God HEED THEM LEST YE FALL INTO A PIT from which there is no return in this life.

God Bless You All .

REPORT OF LECTURE TO A.F.S.R.S. On April 6th .1962

BY.. MRS RUTH HEATHCOCK.

The President introduced the Speaker who is a Nursing Sister and whose remarkable experience is here told. in abbreviated form .

The experience occurred to her in the Northern Territory of Australia in Feb. 1941 , and up to this time she had not seen a Flying Saucer or heard of Space People , so she called her helpers in this incident "angel visitors" . They came in answer to a great emotional call for assistance in an operation which Sister Ruth knew was far beyond her own physical ability to perform .

Up in the Gulf of Carpentaria country where Vanderlin Island protects the coast, the esturaries of the big rivers were cluttered with uprooted trees , yet it was down one of these, the McArthur River, that Sister Heathcock and four aboriginals sailed in a native canoe some 40 miles to the coast on the first part of their journey they made to answer a call for help . It was from Mr Horace Foster who had sent two of his natives through fast rising flood waters to get medical aid for his badly wounded thigh .

The Flying Doctor had been unable to land at Foster's place , but had left a full medical kit with Sister Ruth , and with this she bravely decided to make the 60 mile canoe journey which would take three days , hoping against all reason that Foster might survive gangrene and loss of blood.

From the mouth of the Mc Arthur , the canoe was paddled 15 miles along the coast to the Wearyan River. which was infested with great sea snakes alligators, and huge fish. which threatened them from the water, and from above electrical storms with awful stabs of lightening sought their frail craft.

The agitated water of the Wearyan Estuary was safely passed and then they commenced six miles of dreadful exhausting paddling against the flooded River.

Foster's place was eventually reached after a most nerve racking and physical experience and unbelievable test of human endurance , on the third night

A sickening sight met Sister Heathcock's eyes , for she found Foster lying where he had fallen, laying on a buffaloes hide, for the natives had dared not move him, for fear of his broken twisted leg, and the blood that might start to flow again from the shot gun wound. It was a horrible festering and swollen thigh, full of maggots and ants, but these had stopped gangrene.

By the light of lanterns the wound was washed clean, congealed blood removed , broken bones exposed . Foster was feverish so was given a sedative and with medical kit open she was ready to set the leg and dress the wound, but she realised the task was beyond her . She uttered a prayer that she might finish the job , for in her extremity she knew she needed help to remedy this compound fracture with its contused flesh of green, black and yellow around it.

It was then, that the men appeared, the elder about thirty five it seemed , and the other a few years younger . They wore white operating theatre gowns and gazed intently at the wound. The elder man stretched out his open hand " instructively " and Sister Ruth said. " I placed the artery clip I was holding into his hand . He deftly worked aided by his assistant whilst I passed the required articles and dressings "

At last the job was done..

She gazed at the plugged and perfectly dressed wound with a small drainage tape at the lower end , and the leg lying straight in padded splints from hip to ankle , it was a perfect job , and Sister Ruth raised her head to say " Thank you " to her helpers, but they had vanished. Was it a vision ?. The aboriginals had seen the " two fellow good doctor bin give missus hand", and the expertly dressed leg was mute testimony to the " angel helpers" That was real enough .

Horace Foster spent three days confident he would get well, then tetanus suddenly extinguished the spark of life in him . Within an hour the Flying Doctor had landed at a newly cleared emergency field, too late with the anti- tetanus injections . He heard Sister Ruth's story and said " You were very blessed in your medical work "

Yes. Horace Foster died, but he did have three days of comparative comfort and loving attention because the men in white had answered the call for help of Sister Ruth Heathcock.

SIGHTING REPORTS..

.....

TWO GIRLS SIGHT STRANGE OBJECT WITH LIGHTS.

ADELAIDE. MARCH.

It may be mere co-incidence. but the following sighting took place a few yards away from the home of the above lady Sister Ruth. Heathcock. We regret that we cannot give the best of details as despite our request repeatedly for data. we as yet have not been able to get the fullest details from those whom it was told to. such lack of co-operation is very discouraging to say the least . but we did receive the story from a friend before it was told publicly. and we give it in such detail as far as is known to us. We may have to stand to be corrected . but we believe that the young girls were quite sincere. and that there was no reason whatever for them to make the story up. It occurred one evening when two girls , one a Miss Sims, were walking along Dudley Cres. Marino S.A. (a beach resort near Adelaide) when Miss Sims said she felt a horrible feeling that she was being watched and felt quite uneasy she felt it so strong that she looked around and to her amazement and great astonishment. she saw a large object in the sky above them to their right . she felt terrified. and noticed that there were a number of lights around it It was a circular object. the number of lights were about twelve. but at one end she noticed a sort of search light which was white and shining down . she was so alarmed she began to shake and then plucking up her courage ran with her friend to her home . We wish we had the details as to size etc. but can not elaborate on that which we do not know but will add such as further facts come to hand. One thing we do feel is that it is very similar to many other experiences and so sounds quite reliable. also the description is very similar to the sighting by two market gardeners at Purnong, some years ago. with the exception that the search light was seen by the girls and not by the market gardeners.

SIGHTING REPORT. CONTINUED.

THREE OBJECTS SEEN AT SWAN REACH S. AUST . DEC 1961.

An Ex. R.A.A.F Officer. and his wife who were staying at a holiday shack at Swan Reach , a River resort on the River Murray , reported they saw Three objects about an hour before dawn. They said there were no stars. but the sky was turning from purple to blue. when they saw the objects.

The duration of the observation was less than three minutes.

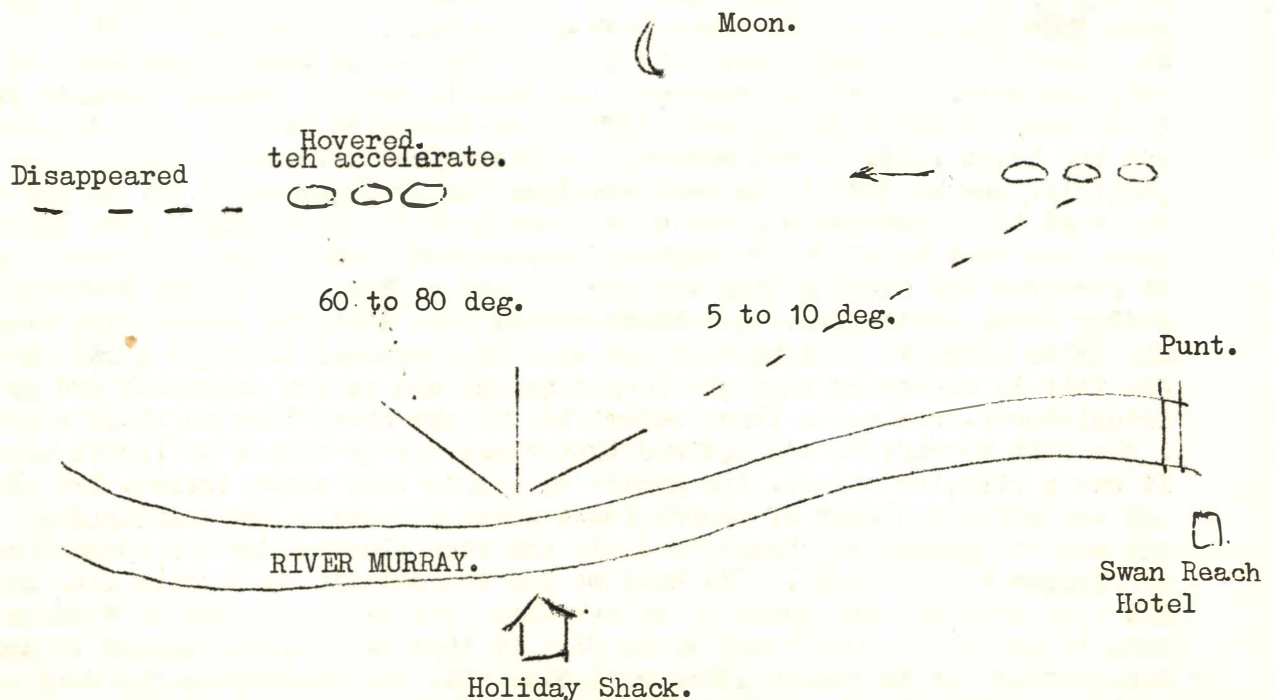

They were spaced equadistant during the whole of the period of sighting They were circular. The objects measured about 20 to 30 ft. in diam. they approached from a northerly direction about 5 to 10 deg. in the sky appearing at a right hand position from the observers . the objects moved to a position to their left approx. 60 to 80 deg. in the sky. and then hovered for a short moment. then accelerated and disappeared in the direction of Mt. Pleasant .. The observers also mentioned a transparent appearance of the three objects , and in their own words they described them as being an " orange translucent Q".

The husband is an engineer

The Editor would like to draw the attention to the fact that the location is not very far from another place which had a remarkable sighting some y years back namely the Purnong Sighting in which a market gardener and a friend observed a huge craft on the ground. lit up with many lights.

We give below a drawing of the above sighting as supplied by the observers.

ARE THE U.F.O.s. A NEW RELIGION . ?.

BY. E WESTPHALEN 7 Bakkevej, Malholm. Vejle
Denmark .

The above is translated from the Danish Saucer magazine UFO-NYT. AND IS
Edited by Capt H.C. Petersen of the Danish Air Force.

From many quarters, both inside and out of UFO circles, it is intimated that
flying Saucers amount to a new religion , and some UFO fans at once pro-
test against such intimations.

Those who wish so are often religious people who very often by their own
observations must admit that there is something in it. and then try to in-
corporate the UFOs in their more or less dogmatic beliefs.

~~Then there are certain~~ spiritistic cir-
cles who wish to have them woven into their theories for the purpose of
acquiring new converts ---- And then there are such circles who wish to
work purely scientifically, and they strongly turn upon the others con-
ceptions often for fear of being ridiculed by those who do not understand.
Now , we people are, as a matter of fact. at once ready to put our indiv-
idual stamps on everthing each time there is a new discovery, and then we
at once have the classification instead of finding the central essence.
about which everybody van agree to co-operate , and then leave alone all
those samll mostly inessential things which create divisions, because we
really canafford to be in discord any longer .

. Briefly , let us consider the essential factors. Any person who will
take the trouble to find out only a few of the reports and facts in pos-
session of the UFO organisations , cannot deny that we are being observed
by rational beings from the universe. and on the basis thereof , even if m
many decline to admit it, we must understand that they must rather have
logically reached a higher moral stage than we, otherwise they would have
many years ago displayed hostile activities.

Consequently we can therefor all agree that they are in a position of a high
er moral recognition , which has not been doubted bu any quarters. But
what ~~we do~~ we understand by this?. I'm sure that everyone will at once air
his or her own conception or thoughts picked out from this or that theory
religion, or materialistic view. But we shall here try to use a higher lo
logic. which everyone must recognise. The central matter which is like in
all theories in the world is religious, and for that matter which is also
in political , respects it to be true brotherhood and love to thy neigh-
bour which must be everything and all live beings , In this respect
we must be able to agree, Surely .

It is, as a matter of fact, not necessary to understand more than that,
and this is what our spacebrethren have been taught and are putting into
practice, and on the basis thereof we must find the explanation why partic-
ularly now they are watching us after we have commenced using nuclear fise
sion porcesses . which they , of course can see will lead us into the big
catastrophe. if we do not learn quickly to understand. that a higher sense
of morality and way of living must accompany the knowledge coming into our
possession . but in that respect we are regrettably enough far behind in all
our spli+++ng and bickering. But this is, as a matter of fact, the essence

to which we must and have to take an attitude and then let go of small unessential dogma and prejudices . beacuse they cannot preserve us which moreover the history of the world ~~proves~~, but so can the uderstanding and daily practicing of kindness, tolerance , brotherhood and love to ~~everything and everybody~~ surrounding us , irrespective of race , creed occupation, nation, religious or political ideas or views . Only this can create the bridge to free us from the catastrophe and nothing but this No matter how much we would prefer to go on sleeping within our own little sphere with its quarrels and trifles and hoping that things will turn out all right, and after all we have got the U.N. , or saying I'm saved by bei being a member of this or that organisation , NO, we must face the facts and start from this very day .

The world's problem and it remains, the individuals problem, solve it by staring tp practice to understand of the above, and each individual will b byhis own example induce others to follow it, and the cahin reaction will be started and spread ~~everywhere~~, and will soon reach also the circles , from where we think we can do nothing, such as Govern~~ments~~ and the U.N. etc. When the small count~~ies~~ demand peace and brotherly loveand are practicing these things among themselves , then the greater countries will also follow their example , but ~~is~~ is required that we must be aware of all our actions and what we say, because how can we otherwise expect the world to show peace if we hate our neighbour. ?.

There is no discussion about that, even if we would like to talk ourselves ~~oft~~ of this , and yet this presents no novelty. all of our great person- alities and founders of religion have spoken along the same lines within every branch , but it is easier to believe in some theories and dogmas and be a member here and there , and work for bringing others into this belief than the practicing of the bentral matter, the love. then the the~~ories~~ and also all the ~~classifications~~ will automatically be abolished.

That the ~~Space~~-people say the same must be a natural and logical conclusion ,and by believing the respect~~able~~ people who state ha having been in contact with them, we will get it further confirmed.

Are, as a matter of fact, the UFOs a new religion ?. No, they are only an ~~inim~~ination to us all of finding the central universal core and practice it NOW. And there is not time or use for theories and prejudices but for true daily practicing in the highest understanding of the Gospel of LOVE.

You, who are reading this ~~article~~ now will nod in confirmation , but the catastrophe is not that far away. maybe only a few months or a few years at most, ~~start~~ being aware of your behaviour in the daily NOW inall your acti tions and let your friends and acquaintances notice it by your ex~~ample~~ ~~so~~ that the chain reaction can get started now. Do not believe, but admit understanding, if you doubt then cpm~~mence~~ turning your eyes toward the skies and also you will some day see the UFOs who are only awaiting the moment when we have become so kind and peaceful that they can land and co-operate with us in happiness and peace.

The sentiments of this fellow brother. are to be commended. and whilst some may not agree with the final summing up of his thesis , yet as he says the unessential things are not what matters . IT IS THE NOW. we must give thought to. The EDITOR .

A T O M = M O T O R S F O R S P A C E S H I P S .

BY HANS LAURITZEN .

Frieburg.; The Soviet Union counts to finish an atom-motor for space-ships in 1964. Professor Otto Lutz from Braunschweig indicated, as the scientific society for airtraffic began its yearly meeting in Freiburg According to Lutz, American scientists hope to make use of a similar motor in 1965. Both Soviet and the USA are said to have intensified their efforts within this branch of space research .

Sydsvenska Dagsbladet (News) Oct. 1961

When atom-motors for space ships are ready, it will be possible to send off from earth so great spaceships, that bases can be established on the planets, This signifies enormous progress. One can then establish, which matters are contained in the atmosphere of the planet in question, whether life can exist there, and most essential. whether forms of life already are found on the planet .

But this life may for several reasons constitute a danger to earth life Extreme hardy and quick propagating micro-organisms may live there, and occasionally they could be brought to earth, where they are propagating with enormous extension. Perhaps we cannot find any remedy, which is able to kill them. then they would infect all earth life and destroy it. Therefor it is necessary that we are very careful about planet research. This is G.H. Wells' " Invasion from Mars " in reverse.

If highly developed life is already found on the planet, we visit we must also be careful not to land at once among these beings, as they might regard this as an hostile action. on our part. hence the plan of earth men to first reconnoitre around the planets. to gather information. and even then he must land on such places where the beings of the planet do not congregate such as inaccessible mountains, dense jungles, or we have to establish bases under water of profound depths and from there explore activities. We of Earth are preparing for such a visit now.

The technical developments of our planet have taken place during the last two centuries. If one of the former cultures on earth had been more interested in the technical development then we could have been several thousand years ahead. Therefor it is not difficult to imagine that beings on other planets within our outside our solar system may have reached thousands or even millions of years ahead of us in such technical progress. than we have. Such beings may have already visited our globe during the long periods of time which have past. Should they visit our earth today they would do probably just as we would do if we went there. and certainly not land in our areas which are thickly populated, but make their bases or landings in such areas which would cause as least notice as possible. in consideration for their own and our welfare. from thence they can explore the activities of the inhabitants of earth.

There can be no doubt that the flying saucers ARE space ships from other planets. Certainly a good many of the reports can be explained as light reflections, but there remains so many reports which by no means can be such. Especially this is the case when reports are made by trained pilots

OVER SEAS SIGHTING REPORT.

UTAH. WED APRIL 18th 1962. (SALT LAKE CITY TRIBUNE.)

FLASH SEARS UTAH SKYS. (PROBABLY A METEOR)

LIGHT SEEN BY PILOT IN KANSAS. A brilliant object flashed across the western skies Wed. about 8.15. p.m. Federal Aviation Agency officials said it was apparently a meteor. - but the thing touched off alarm in Utah, Idaho, Arizona and other sections of the west.

Some residents in Eureka County some 75 miles south of Salt Lake City, were convinced the object whatever it was crashed in the nearby mountains. They cited a blue flash and a rumbling off in the distance. The police Chief said it was very close to the community.

Other witnesses who crammed the telephone wires said it flashed across the night sky from east to west and was visible for about two to four seconds.

One other resident said it shook her house. others said it left a smoke or vapor trail. Pilots from as far east as Goodland, Kansas and in Utah, Nevada, and Arizona reported the flash.

The light was so brilliant it caused the street lamps in downtown Eureka to go off momentarily.

This was followed up by reports from Cal. on early Thurs. morning some eight hours or so later of a huge fireball which seemed to move over the Pacific toward a spot some 30 miles off San Francisco.

Many witnesses corroborated the evidence above but officialdom classed it as a meteor or a bolide.

UNUSUAL AND STRANGE DISAPPEARANCES.

By. D.W.G. Saunders New Zealand.

Regarding Aeroforms which have been appearing in our skies with ever increasing frequency and numbers. It is interesting to note that these celestial bodies have appeared throughout history. They have been most prominent at times of great crisis or cataclysm of Nature and during armed conflicts. They have been recorded as early as 41.B.C. as Ancient Roman scrolls reveal. It is no wonder then, that they have become so prominent in this Atomic Age.

They have greater reason now than ever in the past to take an interest in this Planet Because the entire safety of the Solar System may well be threatened. Laugh if you must, but, Scientists are now pausing to consider the possible damage they may already done, not only on Earth, but beyond its atmosphere.

Though Civil and Military authorities have spared no effort in discrediting Interplanetary Flying Saucers. there is information available which reveals that a close and secret study is being made of these visitors by these authorities. Perhaps the presence of the Space craft has had a profound influence on the Atomic suspension of tests just recent by major powers. for it would seem that it is more than probable that destruction of our species might well come from the Heavens before we have a chance to destroy ourselves by Atomic disintegration.

The information of my own files clearly illustrates that the visitors have given warning demonstrations of what may happen if we do not abandon further Atomic tests, and these incidents have been demonstrated in the U.S.A., Great Britain, and Australia and were of a severe nature. If you would care to read the incidents, then I suggest you read H.T. Wilkins' book "Flying Saucers from the Moon" and most of Major Donald Keyhoe's books. each of which contain a wealth of matter for the student who wants to search in an unbiased manner.

Here are a few instances of strange disappearances, many of which have happened since the present advent of space-craft in our skies. some are very strange and disturbing, yet much of the information has been withheld from the public. for what purpose I cannot understand, as I feel it would be more prudent to release the information and put people on their guard. One thing is certain, if people knew the truth, then a greater protest against Atomic tests would be made and perhaps the World would return to sanity.

Captain R.J. Cook, piloting a British South American Airways "Lancastrian Star Dust" over the Andes at 24,000 Ft. on Aug. 2. 1947, made the last contact with this world at 5.p.m. by radio. On board with him was a crew of five and six passengers. The plane and its entire complement vanished from the sight of men without trace. An organised search by trained Alpinists, Police, Search planes and cars, over an area of 250 square miles failed to locate even a minute portion of wreckage or human remains. The mystery has never been solved.

On Jan. 30th 1948, another plane of the same line "Star Tiger" vanished without trace 400 miles off Bermuda, (This spot seems to re-occur a great deal in the records of these strange plane disappearances in many books and official records. Editor) She carried 25 passengers and a crew of six. This ill fated Company lost a further Airliner, the "Star Ariel", on Jan. 18 1949. 200 miles off Bermuda. with 13 Passengers and a crew of seven. No wreckage was found. A B.A.O.C. Airliner reported a strange glowing light in the sky

AUSTRALIAN SAUCER RECORD. PAGE. ELEVEN

in the area where the " Star Ariel " vanished.

If you doubt that the Flying Saucers were involved in these disturbing instances permit me to illustrate a strange report from my files which indicates that we are dealing with forces beyond our power of comprehension; with some weird intelligences that has a far greater knowledge of Gravitational forces and cosmic power than we have.

A pilot. flying over the American countryside at an altitude of 6.000 ft. Pilot. John Jansson , of Morristown . N.J. U.S.A.) SUDDENLY BECAME AWARE OF A BRILLIANT SHAFT OF LIGHT at 11. o'clock, a position above the plane's nose. He says " Suddenly my motor which was in the pink of condition shuttered and coughed. I pulled on the carburettor heat, but the motor coughed and went dead. Instead of the planes nose going down into a normal glide . it remained rigidly level . The whole plane just hung suspended in space , all instruments and indicators were at Zero. My plane was defying all the laws of Gravity . and I became frightened "(Who wouldn't ?) " As I looked up I saw two bright disc-like Craft gleaming metallic in the Sun . I felt a strange prickly sensation as though I was being minutely examined from head to toe. Then , I had an unaccountable desire to reach up and switch on the magnetos. The engine roared into powerful even sound. the propellers whirled, and my instruments resumed normal function . The plane nosed into a stall , picked up air speed and steadied under control " It is a known fact that Pilots flying over the Burma road also had this experience in 1944.

When experienced Civil and ~~Service~~ pilots report such a strange happening we surely cannot afford to be sceptical . Here is another . A Squadron of planes flew into a large strange looking CLOUD . and never reappeared, and no trace was ever found of the wreckage.

People ~~per~~ seriously vanish without trace . A young girl said goodnight under a street light to another girl friend, and the 16 year old girl set off down the street toward her home . Her friend watched her go. and heard the clicking of her heels on the pavement . Then they ceased suddenly , and no trace of the girl has ever been found since . Just one of hundreds of such strange cases on record. But what is involved . ?. Do the U.F.O. snatch people away. one has only to read many U.F.O. books to know that it seems to indicate that at times such is the case.

Regarding the case I have just cited . the girl vanished in a fraction of a second. . There was no sign of a struggle . no motor vehicles were in the vicinity .

A man who farmed for his living set out one day across the sunny fields to attend to farm tasks . As he plodded away he was watched by his wife and children . Suddenly , he vanished before their eyes. Searchers led by the police failed to find any trace of him . but at the spot where he vanished, a large scorched circular patch was discovered. Grass has never grown there since and horses and cattle refuse to approach within yards of it.

It has been suggested that the entities of the saucers are able to in some way to bend light rays making themselves and their craft invisible. Such a theory has. perhaps . some basis. In fact. as reports from many parts of the world where Saucers are said to have made landings . state that circular scorch marks have been noted. There have been two such instances in New Zealand

have been noted . There have been two such cases in New Zealand, and one at least in Australia to my knowledge.

We of Earth are prone to believe that we have reached our peak of Scientific endeavour in splitting the Atom , yet we have not even scratched the surface of Cosmic knowledge , and are not likely to for many centuries, that is if our species continues to exist that long . If we are to hope to understand the mysteries surrounding us, we must first come to realise that man is not the only sentient life form in Creation , nor his tiny planet the only one capable of producing an atmosphere conducive to the survival and existence of intelligent life.

Many people imagine the beings controlling the Saucers to be bug-eyed tentacled monsters , intelligent insects, or animated intelligent vegetables. I cannot under any circumstances , reconcile a highly developed intelligence with any form of monstrosity . It is not only illogical, but contrary to the Divine laws. I maintain that intelligent life throughout Creation is universal and made in the image of God. as we are.

Can we know with any degree of certainty that the Saucer entities have some ulterior motive in spiriting away people and property ?.

Perhaps they confiscate aircraft for study or Museum pieces , and take people to reveal unto them the benefits and beauties of a higher life. How can we know?.

One of the largest Saucers or space ships ever observed and reported officially was of stupendous and incredible dimensions, being 10 miles long and two miles wide. I have the report in my files from an authoritative source. Such a vast craft would have no difficulty in accomodating several Squadrons of Super Forts. or Airliners.

What super colossal forces must be called into use to enable such a monster to remain stationary in Space?. What tremendous power to propel it through Space at speeds approaching, if not exceeding that of light. ? and at speeds far in excess of sound within our atmosphere. In the light of such revelations , we of earth are only in the kindergarten stage of knowledge.

A case is recorded where a huge saucer was seen to explode and vanish in a shower of brilliant sparks over an English town . It re appeared almost immediately in another town some miles away. The description and characteristics conforming with the one seen to explode (apparently) just before. a transition through time and space staggering to human comprehension.

A famous Electromagnetic engineer has stated that any beings able to harness the awful forces of Magnetic Energy could make a journey from Venus to Earth and return in 42 minutes. Journeys to the remotest Star systems could be made in a matter of hours , involving untold Light years of distance.

Is it any wonder that people are fearful of the strange aerofoms in our skies? Their fear of the Atomic bomb is perhaps surpassed by their fear of these strange visitors . Terrestrials are a race forced into an age of super normal rate of scientific development and advancement . They are bewildered and frightened , like a child that needs its mother . They need a Leader to

and frightened like a child that needs a mother. They need a Leader to guide and comfort them and that Leader will soon appear in their midst. Will they know Him and accept him? Perhaps He is already here? Who can know?.

Perhaps the presence of the Aeroforms are connected with the promised Second Coming, and there are many who believe this. Only events will prove or disprove this possibility. I have a feeling it is likely to be proved.

It is not known how many of the celestial visitors are now mingling with the populace of Earth. Unknown for who they really are; being of humanoid form and dressed in Terrestrial clothes they could not without thorough investigation be detected as Alien. They would in all probability have super mental powers, and could possibly contact their kin by mental telepathy and Terrestrials have no way of detecting such methods of communication. Information and directives could be freely transmitted and received completely immune from detection.

Impossible you say, Well, only a few years ago the Atom bomb, Space Satellites, Rockets to the Moon, were considered impossible. They are all now a reality or within reach. Nothing is impossible until it has been proved otherwise. So who is to say or is in the position to deny this?.

Immature development of Spirit is the hallmark of the sceptical, narrowness of thought, their downfall. It is an unfortunate circumstance that they halt progressive thought in others. They seek by ridicule to destroy TRUTH. Yet in the end, TRUTH MUST and will destroy them. For the Universal Law, which states there cannot be action without reaction, will be the cause of their downfall.

The Atom bomb, the Tritinium and the Lithium, are terrible realities, and at present there is no guarantee that some madman will not precipitate an Atomic War and bring about the cessation of all life on Earth.

A leading Physicist has stated that two Hydrogen Bombs exploded simultaneously could jolt the World off its axis, throwing it out of Orbit. The effects of a quantity of these bombs exploding on Earth does not bear thinking of.

If total destruction from Atomic War does not fall our lot, it is certain that a slow lingering death for all humanity will result from the accumulated radio activity poison built up from continuous tests.

If this world were to be jolted from its orbit, would it collide with some other Planet of our system? Would it fall into the Sun, creating a Super Novar? Would it cause all Planets of our solar System to crash into the Sun?.

Science realises the awful possibilities of such things happening, yet loudly protests that the bombs are grossly exaggerated. Einstein, on his deathbed, entreated God to forgive him his part in producing the Hell Bombs. And, the shade of Rutherford must feel great disquiet at the trend of events in Atomics.

If superior intelligences have chosen to travel over vast Light Years of

AUSTRALIAN SAUCER RECORD. PAGE. FOURTEEN

of Space to take an intensive interest in our activities, we might do well to interpret their presence as a warning. Not only a warning from Other world intelligences , but one from Almighty God, who in accordance with His Divine will. has sent these signs of His displeasure.

Each and evryone of you can easily give way to the forces of evil. It is so much easier to do bad things than to do good. Yet, you cannot escape the consequences of your spiritual laziness.

Share a thought to the little ones entrusted to your care . Would you like to see them slowly dying of Radio Active poisoning?. Would you like to see them mangled and maimed ? or burned to a crisp?. Would you like it to happen to YOU ?

Beer gardens, parties , race tracks , cannot bring you security from Atomisation , but sensible living. intensive protest, and determined action , plus SINCERE PRAYER , may all united achieve world Peace. and security.

If I, a humble ordinary fellow. can realize the great truths and great dangers , then surely greater minds than mine must realize the awful catastrophe toward which humanity is rushing .

The prophets of old foretold present events and trands, and the Greatest Teacher himself , gave us a clear understanding of what would be our portion should we forsake the Almighty and follow in the wake of the evil one. Truth will prevail over all things , It cannot be evaded . If mankind is to perish, then it shall be due to his own folly. He has had the power of Salvation , or self destruction in his own hands. He can gain Salvation by acknowledging the Truth, or perish in enslaving himself to the negative force of evil .

What can be said more. ?. We ARE faced with an ultimatum : Accept positive Truth. or succumb to negative indifference.

ASTRONAUT. REPORTS U.F.O. ON FILMS.

NEW YORK MAY 11th. 1962.

The second instance of observation of U.F.O. at high altitude has been reported by the pilot of the U.S. high altitude experimental X15 plane Maj. Joe Walker. The pilot told a scientific conference that films taken during his recent flight to a record height of 246,700 ft. showed the presence of five or six disc-shaped objects of undetermined size at some distance from the plane.

The mysterious objects apparently disc-shaped showed upon the film as the X15 arched over the top of the flight and headed back to earth.

Walker said he saw nothing himself and did not feel like speculating about the nature of the objects seen on the film .

(In his position who could blame him for not sticking his neck out. but at least this is another case of something up there which they, the big boys have not got in their. infallable text books). Editor.

ANCIENT JAPANESE HISTORY REVEALS UFO ALSO.

Both in the East and the West , ancient books concerned have been showing that Brothers have visited our planet Earth , in many ways up to the present time. The following pictures are some of those listed below and are all factual material from records to which we are indebted to the above association for their avid research work.

Listed in order of years.

ASUKA AGE.

In 637 A.D. A big star flew in the sky from East to West , sounded like a land mine. A Buddhist High Priest said at that time, that it was not a shooting star but maybe a heavenly fox.

A fire ball flew in the sky on April 18th 1750. Illus. (M).

Three moons lined up in the sky on Jan 1st. 1751.

Two suns appeared over the heads of the people on Jan 6th. 1751.

A big fire ball 2 ft. in dia. flew over Kyoto July 18th 1770.

A lot of hair fell with a light rain over Edo. on July 15. 1793

Matter like spider's web flew over Osaka countlessly .

In the evening of June 21st . 1819, it was very strange for the sun to set.

and slide , and it did not become dark , but was as bright as moon light for quite a while. .

White hairs fell over Akita on July 11th. 1826

White hairs fell very heavy. in capital of Edo. on the night of June 19, 1853.

=====

The above is as reported and translated by our Japanese co-workers. in one or two places the language is as sent to us.

No doubt some of these objects could well be natural fireballs. but others

certainly need some deeper investigation. one or two could be dog suns.

(shades of Menzel) . but quite a few have very strong bearing on what is now common saucer evidence.

SUMMER SCHOOL OF SCIENCE LECTURE REVIEW.

By. Vivien Rendall.

The T.V. Series of Summer Science School has proved very interesting to many U.F.O Students. and Mr. Rendall review one in particular given by Dr. Bracewell one of Australias Noted lecturers.

The Summer- Schoole of Science lectures are very interesting for the scientifically minded , but they are even more so when they include a whole topic which could easily be said to be woven around Flying Saucers.

The Lecturer showed he had imagination when he spoke of the people who he thought could beon other planets (not in our solar system) who might possibly be Sphherical ! But I feel he was lacking a bit when he was endeavouring to find a possible alternative means of communciation that might be used by the people out there.

Whats' wrong with Telepathy I wonder ?. That's certainly got no Time barrier as it is instantaneous throughout with no probagation involved. If the Doctor had dwelt a little on this he would have found the people out there know us through to the core and it would be logical to assume from this that they do not want to contact us. at least not right now.

The lecture was so interestingand had so many points about it which have a relation to Flying Saucers that the youthful audience could not resist asking something about them . But when the questions were raised our lecturer Dr. Bracewell found saucers to be an absolute impossibility! His idea of them was thatthey were nothing more than Venus. (an optical illusion) And I'm sure he was endeavouring to imply they were pure imagination in the minds of those reporting them .

The possibilty of photos, radar etc. , being faked ; is possible But if an intensive investigation is made with regard to these it will be found that a goodly proportion will show an absolute improbability of them being faked.

In General Dr. Bracewell let his own imagination run wild , and rightly so, but he sobered up when he thought that the question of saucers was too dangerous for him to handle and he rather tried to push the question of them over to his colleagues of psychology. who very adroitly came to his rescue. I contend that if the same question had been directed to a psychologist , he himself would push the question off to yet another scientists, No, it does not rest alone with psychology Dr. Bracewell . The question is far bigger than that .

But for all my criticism the lecture was well worth the while for all those who were concerned with its production . BRAVO.

Having observed this session on T.V. I commend the above review as a good one indeed and very fair. During the session the Doctor. led his listeners to the point of the possibilty of life on other planets outside our solar system. and the great possibilty that they were coming to earth and watching us . and of the possible means of communication with them. One of the youthful audience asked if the space people were observing earth If the Doctor had dwelt a little on this he would have found the people out there know us through to the core and it would be logical to assume from this that they do not want to contact us. at least not right now.

AUSTRALIAN SAUCER RECORD. PAGE NINETEEN

Is it not possible that the so called Flying Saucers were such. But to the great disappointment of his listeners he side stepped the real core of the question and ridiculed the idea of saucers. , he seemd somewhat a little nervous here. and very adroitly passed it over to his colleague to answer who came up as our reviewer has stated with the old psychology answer. Actually up to this point the Doctor had allthrough the lecture given an almost word for word lecture as given and written by so many U.F.O lecturers. The possibilty of life elsewhere. The superiority of them in the fields of science including their capability of reaching earth. and their attempts to communicate. But when faced with the question of identifying the space people with the U.F.O he just folded up , you cant blame him he has too much at stake to openly admit such . and although he could find many men of Science accepting this possibilty he must have fe felt that he wasn't game to take the risk along with them .The Editor.

A REMARKABLE NEW BOOKLET.

" THE TEACHINGS OF ALAMAR. "

This little booklet which has been sent to me as an autographed copy is one which certainly is out of the ordinary run of Saucer books for it is not written by one who claims to have been for a " ride" in a saucer , but one whose claims are far more staggering to the human mind. in that the author Alamar says he is a man from space , born on this earth , but from another planet ..

His teachings are certainly of very high standard and very ethical indeed although he does not mince words when necessary to condemn the waywardness of Ecclesiastical authorities in these days.

The booklet is full of extremely high spiritual teachings. It naturally tells of the UFO and there place in our set up today.

Alamar speaks of the healings accomplished by him , and I understand this is verified by one well known to many of us. Dr. Yeang of Malaya. through whose kindly effortsthis booklet has been made possible to be published. The writer " Alamar" is well known to the Editor , who has been in contact with him for many years and this has been an association of the greatest fellowship of kindred souls. Alamar is certainly not just an ordinary man and has from time to time given the Editor many prophetic forecasts which have undoubtedly come true. and over the years a very firm friendship has been established between us. I therefor have no hesitation in recommending to our readers this very fine booklet which I feel will do them good. For the time being his earthly name has been asked to be kept confidential and as always we respect the confidence. However he may be contacted

C/o Mr. G .Ball.. Meta Thought Centre. 23 Park Rd. Glenfield N 5 Auckland New Zealand. or through the Editor.

The Price of the booklet is 7/6 Postage paid. and they can be secured from The above address of Mr Ball. or from Mr. Leith Luckett. 45 Rowells Rd.

Interesting news for those seriously working in the Propulsion field !!

A recent communication from a UFO co-worker who has to my knowledge specialised in this aspect for many years, indicates that he can now give fairly complete explanations of methods whereby persons such as J. Keeley and others who died leaving but little trace of their work, probably achieved the results claimed at the time for their "perpetual motion" or more strictly speaking Free Energy devices.

It would seem that having for many years felt that it was not expedient to release this knowledge, he is now prepared to co-operate with persons who have something to offer, whereby this work may be brought to practical reality.

I understand that any person with an all round general knowledge of Physics, Engineering, Music etc., can easily appreciate the principles involved, which are relatively simple once one takes a slightly different viewpoint on well known facts.

If my guess is correct (Editor) this work is probably the first practical step in our time to produce mechanisms using principles similar to those of the spaceships.

My correspondent has set out a little problem, which he says if correctly answered, indicates the ability of a person to delve more deeply into this type of work.

For the uninitiated he tells us that "an atom" by current understanding is considered to be the smallest part of an element which exhibits all the properties of the parent element.

Further subdivision produces of course various other basic particles and a new type of atom.

He now poses the problem using an elemental mass of Copper in the shape of a bar A.B. 24 inches in length and $\frac{1}{2}$ inch diameter.

Without affecting the problem samples are able to be taken from points A and B and are now allowed to be subjected to any desired analysis.

The bar is now cut in two halves AX' X'B with a "perfect" cutter so that no temperature or other side effects are allowed to be produced.

Once again samples at points A and B are allowed to be taken for analysis without affecting the answer.

The questions now asked are:-

1. Will any known test indicate basic differences between samples from A and B taken in the first and second cases.
2. If no such test exists, is it possibly to prove that there is a basic difference between the atoms at points A and B in the cut and uncut states of the bar, by any simple means whatsoever.

The Editor will be most happy to forward your replies to the person mentioned, who will no doubt, in due course, contact those who he feels are capable of taking part in further development of these Free Energy

DEVICES.

P.S. For those interested in Psionics, I mention in passing that this worker has indicated his belief that these devices, although based upon physical principles for their original construction, may be eventually controlled in space and time by the human mind.

SPECIAL NOTE FROM EDITOR. IN NO CASE OR UNDER ANY CIRCUMSTANCES WILL THE NAME OF THIS CONTRIBUTOR BE REVEALED. IN ACCORDANCE WITH HIS WISHES. ALL CORRESPONDENCE MUST COME THROUGH THE EDITOR. WHO WILL PASS SAME ON TO THE PERSON WHO HAS MADE THIS OFFER TO THE READERS.
